

Exciting things are happening in our District related to the Altrusa International Days for Girls Project, a partnership to improve the lives of women and girls internationally. Our clubs are participating in a variety of creative and meaningful ways. One club has started a team, others are working with existing teams in their area, and others are collecting supplies and sending them to the national Days for Girls office in Bellingham, Washington. Some clubs have made monetary donations to the effort. The Days for Girls office can help you track your clubs giving. DFG can also assist your club with setting up the ability to receive and send online donations using credit cards. Please contact me if you need any of the resource materials such as Helpful Links, the revised FAQs, or fabric guidelines. In addition, I will be happy to answer questions or find an answer to your questions. The folks at the national DfG office are getting to know me. The link for the Days for Girls website: <https://www.daysforgirls.org>.

Remember that activities for this project can be reported for the Dr. Nina Fay Calhoun International Relations Award. Thanks again for all your efforts related to this important health and literacy project!

Judy Perkin,
District Three Coordinator, DfG Project
